

DYNAMIC SAFETY LLC
MODEL: DSS-101 SERIES

Aircraft Types	B737
	A320
Certification	FAA TSO-C127b
	AS9100 Compliant

Key Features:

- Ergonomically contoured seat pan and back support for superior comfort during short and long range flights.
- High hinge-point seat back and sliding seat pan design allows for relaxed seating with increased space to rear passengers.
- Curved, thin-back design provides more passenger space than traditional seats.
- Low HIC/FEMUR test values by design offer greater occupant protection.
- Competitive weight for fully integrated EC seats.
